WORKSHOP 2

How Degree Apprenticeships are bridging the gap between education and employment.

With skills gaps continuing to plague the UK economy, Degree Apprenticeships are set to play an increasingly crucial role in addressing the problem, since unlike traditional degrees they must be aligned with the needs of employers.

In this session, co-hosted by Emsi's Director of Higher Education, Richard Hewitt, Mandy will look at how Degree Apprenticeships are making a difference in bringing Higher Education and employment together, and the key role that good regional insight can play in helping providers to grow and improve their offer.
